

## WHAT WE DO

### CONSULTING

Our consultative sales approach focuses on understanding your needs and providing custom solutions that consistently exceed expectations. We aim to create long-lasting partnerships by offering valuable insights and ensuring our products and services align with your goals.

### DESIGN & INTEGRATION

Our team of engineers designs your custom HVAC solution, seamlessly integrating diverse product lines as needed to optimize performance and efficiency for your project or application. Our strong vendor relationships guarantee access to top-quality equipment and support throughout the process.

### DELIVERING VALUE THROUGH ENGINEERING SINCE 1972

Since 1972, Lincoln Associates has been a top HVAC & Refrigeration equipment representative across the Southeast. Our experienced engineers specialize in custom system integration for industrial and commercial end users, contractors, and engineers.

We represent a wide range of equipment manufacturers including refrigeration, heating, humidification, air purification, cooling, and dehumidification. Serving primarily Georgia, Alabama, Tennessee, Florida, and South Carolina, we guide our clients from project start to finish.

### AREAS OF EXPERTISE

 Industrial Dehumidification	 DOAS & Make-Up Air Systems
 Custom Air Handling Equipment	 Replacement DX, Fluid & Steam Coils
 Medium & Low Temp Refrigeration	 Mission Critical HVAC Equipment
 Process Chillers	 Air Rotation Units
 Infrared Heating Systems	 Air Curtains
